SIMPLE SWITCH KIT

We Make the Switch Simple

5 Simple Steps

To Switch Your Account

The Process:

1 Open you Connections Bank account

Visit your local branch and a Personal Banking Representative will answer any questions and help you determine which checking account options are right for you.

2 Stop using your old account

Once you receive your Connections Bank checks and debit card by mail, discontinue use of your old checking account and allow all transactions to clear.

3 Change your direct deposit

Complete the enclosed form and submit it to your employer's human resources department, your retirement plan administrator along with a voided check. Note: to change Social Security Payments, call 1-800-722-1213. Do not send a letter.

4 Change automatic payments

Use the enclosed form or directly contact your previous bank to discontinue any automated payment services set to pay on a monthly basis. You also may use this form to stop all automated withdraws initiated by credit card companies, automated Online payments or other vendors.

This is also a good time to sign up for Connections Bank Online Banking. With Connections Bank Online Banking, you can check balances, transfer money or pay bills with a click of the mouse.

5 Close your old account

The easiest part of all is once you have confirmed that all transactions have cleared your previous bank account, submit the enclosed letter or contact them directly to have them close out your checking account and return any unused balance. Destroy and discard your checks, deposit slips and debit or ATM cards from your old account.
